About Us

Our Company

Smart Point is a Technical Services Company located at Dubai. A team of professionals is managing our company. We are committed to provide all clients with the best possible service available.

Our Team

[Smart Point Technical Services LLC](#) is committed to employ only professional and well-educated experts in their fields. All team members are qualified, respectful, reliable and trustable. We are covering all specialties of our business. Our team is flexible, dedicated and service oriented.

Our Vision

We build long term business relations based on mutual confidence and trust. Client's requests are treated with highest priority. We are committed to respond to each request in the fastest possible manner to make sure that all our clients will receive the best possible.

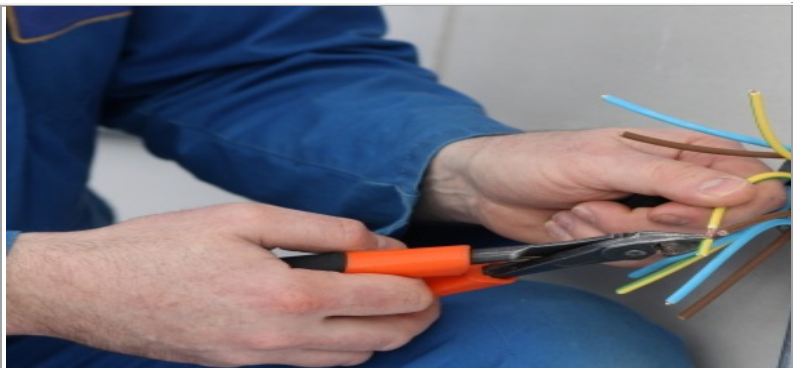

Air Condition Maintenance

We understand the delicate nature of these types of systems and as such we take the upmost care in restoring them back to their original condition using specialist compressed air units. Our trained staff is able to tackle any potential issues with ease and with the use of our compressed air units we are able to maintain any air management system you may have without the use of potentially hazardous chemicals.

Electrical Work

When electrics go wrong in your home or business, you won't want to wait for a quality electronic repairs service. For Dubai electrical repairs and maintenance, We offer electric repairs services.

Plumbing Work

Do you need plumbing repairs in Dubai? Call Smart Point Technical Services LLC and we'll send an expert plumber to your door at an agreed time. And, what's more, we offer you complete peace of mind with a minimum six month guarantee on all our plumbing repairs.

Solar Energy Systems

The solar panels are made up of photovoltaic (PV) cells, which convert sunlight into direct current (DC) electricity throughout the day. Smart Point Technical Services providing experts to install and maintenance of solar power systems.

Fixing of Floor and Wall Tiles

The best floor coverings for use with under floor heating are hard surfaces such as stone and ceramic tile as they have the least resistance and transfer heat effectively. As the most thermally conductive of all floor coverings, energy from the heating pipe array can transfer quickly to the surface of the stone/tile. Increasing the thickness will have little effect on power output.

Painting Contracting

Your home is more than just a place to live. It's where your memories are made and where your dreams come true. Your home is where your life happens – shouldn't it look beautiful? At Smart Point Painters, Services, we believe that everyone deserves to live in a beautiful home. Painting is one of the least costly ways that can improve and change the overall appearance of your home.

Carpentry Work

Smart Point Technical Services LLC trade accredited carpenters are on standby to handle everything from emergencies such as break-ins to full kitchen installations. Every job our expert carpenters in Dubai do comes complete with a minimum six month guarantee, so you know you're getting the highest quality of work every single time.

False Ceiling

Whether you are a retail or commercial business, you will be amazed by our simple solutions and quality workmanship. We give you best deal that we can, with free site surveys, a free design service and competitive prices you won't argue with.

Gypsum Partition

We specialize in creating and installing partitions that are the perfect way to create separation in your working environment. Our partitions can help you divide your shop in order to highlight different products and ranges, and we offer both straight and curved solutions that are made in a variety of different materials.

Block Works

This procedure provides a method of control for construction of block masonry work in order to achieve compliance with the contract specifications and drawings

Plaster Works

A plasterer is a tradesman who works with plaster, such as forming a layer of plaster on an interior wall or plaster decorative moldings on ceilings or walls. The process of creating plasterwork, called plastering, has been used in building construction for centuries
